

Innovations International Charter School of Nevada

**K-12 Public Charter School Serving
the Las Vegas Valley**

Enroll your child today while space is still available! We're filling up quickly. Opened in 2006, a public K-12 school with **free** tuition, an 8 hour extended school day, before and after school programs, extracurricular activities to include league sports, and a full academic schedule for graduation and college preparation. Our global curriculum is offered at all levels allowing students to explore their interests and our martial arts program allows students to progress through the belt system while showcasing their skills and highlighting self-esteem. Our introduction of Dual High School and College credit classes helps us to round out the integration of enrichment skills with academic course work. We are fully accredited with the Northwest Accreditation Commission for K-12.
